School system costs for a system that has a small number of students, some aging school infrastructure, excessive administration overhead, and a very different tax value between 3 member towns. Increasing non recreational commercial development (new solar fields are a start, more manufacturing, major retail such as hardware/farm supply/vehicle dealerships). Public transportation connections to urban areas with interstate transportation options, and for also for aging population. Need Park and Ride(s).lots. Excessive number of residential/commercial properties with delapidated structures and piles of junk on site.	Other than making it snow less in winter would be the school system.

It's a large hub and could become even more prominent if you bring the right stores there. It would also be nice to increase the amount of hiking/biking trails in the area. We should also invest in businesses that help promote this area as a bedroom community. Poland is in a perfect spot for someone to land if they work from home, because you're close enough to oxford, naples, lewiston/auburn, and portland/gray so you could live here and be close enough to everything that you would need. Helping to foster that group would only benefit the Poland area as well.	The plains road shoulder is too low now for that narrow of a road. It's very easy to go off the side of that road in some spots.

I wish it had a small town feel that had shops and cafes and you could park your car and walk around to do shopping and visit with folks. To have a downtown square with a park. I know that wouldn't happen because of the way Poland is set up but it's a nice thought.	I do like living out in the country where you are not on top of your neighbor as I do like my privacy.

They look tacky. Also, the area from the dump road to the high school looks like an industrial zone gone wrong- too many lots piled with junk and unoccupied buildings in disrepair. This does not entice any business to consider locating here.

Citizens want services in 2020 and want to pay like it is still 1990	Citizens and town officials need to work together to make this a better place. We need to be hand in hand with the town as residents and its boards and committees. There is a disconnect between a common goal and the individual agendas of some.
