

Agenda for November 29, 2022

BOS Workshop Range Ponds and Tripp Lake

6:30pm to 8pm

----- Open/ Purpose

This is a workshop intended to get interested and influential and knowledgeable people together to discuss the issue(s) and reach common understanding of the issue and create a potential approach of solutions. The BOS is holding this workshop to kick off the process but will not continue the pursuit of the issues as leaders or facilitators. The town has limited control and authorities but are open to be a partner in viable actions and solutions where possible. We all acknowledge the importance and potential impact, we care.

----- Introductions
